Vroon is a dynamic and ambitious international shipping company. Vroon operates a fleet of about 140 vessels and employs a seagoing staff of about 3,800 people. Currently Vroon has a new building programme of about 40 vessels on order for delivery in 2010-2012 to support the global expansion of Vroon.

Vroon Ship Management (VSM), located in Terneuzen, is part of the Vroon Group. VSM is responsible for the technical management of some 24 Vroon-owned ocean going vessels and employs a seagoing staff of about 800 people.

Ship Management Teams, consisting of a Fleet Manager, Superintendents, Crewing Officers and Purchasers, are responsible for the operational performance of a group of vessels.

To support further development of our organisation in Terneuzen we are looking for candidates for the following positions:

Second Engineers
Third Engineers

Job requirements:

You are in possession of the appropriate Certificate of Competence, preferably with oil and chemical endorsement. For candidates without the oil and chemical endorsement we have a 6 month educational path to obtain this endorsement.

You are a responsible, perseverant and flexible team player, able to empower the skills of your team members.

Furthermore, you are confident and enthusiastic, with good communication skills and fluent English. In return, we will provide you with competitive terms of employment, flexible leave arrangements, plus training and development possibilities, aimed at enhancing your skills to help you achieve the highest possible rank.

For further information, please contact our Crewing Department. Applications, including extensive résumé, should be sent to:
