

Vroon is an international shipping company with a fleet of about 150 vessels and approximately 3,800 seafarers. In addition, the company currently has more than 30 newbuilding vessels on order. With its head office based in Breskens, the Netherlands, Vroon has offices in Barendrecht, Terneuzen, Den Helder, Aberdeen, Stokesley, Genova, Singapore and Fremantle (Australia). Vroon has about 300 shore-based employees.

At Vroon's head office approximately 100 staff support the shipping activities.

Areas of expertise include chartering, operations, ship management and newbuilding project management, plus the provision of ICT, accounting, treasury, legal, personnel and administrative support.

Vroon operates worldwide and, in order to do so successfully, we depend on a world-class organisation with highly qualified and motivated employees and on teamwork throughout our organisation. We are constantly looking for ambitious team players who excel in their area of expertise.

Vroon offers its employees extensive opportunities for career and personal development.

We are looking for candidates for the following position in our Breskens office:

Newbuilding Project Manager

As Project Manager you are responsible for the correctness of the technical specifications provided by the shipyard or design offices. You will be responsible for the progress of one or more projects, their site teams and the contacts with the Classification Society, Management Company and shipyard. You create outline specifications, project schedules, budgets and assists in setting up site teams.

To excel in this function you preferably have a Master's degree in Technical/ Maritime studies or comprehensive knowledge of shipbuilding project management and at least 10 years' experience in a similar position. You have good knowledge of modern shipyard production methods and statutory and class rules. You have experience with ship's systems. In addition, you have strong managerial, analytical and commercial skills and are able to coordinate and work in a team.
