

Vroon is an international shipping company with a fleet of about 150 vessels and approximately 3,800 seafarers. In addition, the company currently has more than 30 newbuilding vessels on order.

With its head office based in Breskens, the Netherlands, Vroon has offices in Barendrecht, Terneuzen, Den Helder, Aberdeen, Stokesley, Genova, Singapore and Fremantle (Australia). Vroon has about 300 shore-based employees.

Vroon Ship Management B.V. (VSM), located in Terneuzen, is part of the Vroon Group. VSM is responsible for the technical management of some 26 Vroon-owned ocean-going vessels (tankers, livestock vessels and car carriers) and employs a seagoing staff of about 800.

Vroon operates worldwide and, in order to do so successfully, we depend on a world-class organisation with highly qualified and motivated employees and on teamwork throughout our organisation. We are constantly looking for ambitious team players who excel in their area of expertise. Vroon offers its employees extensive opportunities for career and personal development.

**We are currently looking for candidates for the following position in our Terneuzen office:**

### **Vetting Officer**

In this function you coordinate the vettings and process the results in the internal and external reporting systems. You work towards an improvement of vettings and vetting results and update the Vessel Inspection Questionnaires for the vessels. As Vetting Officer you are responsible for monitoring safety, health, environmental, quality and security standards on board the vessels and providing appropriate and timely advice. You act as Designated Person Ashore (DPA) for a fleet in accordance with the ISM code and as Company Security Officer (CSO) in accordance with the ISPS code. You conduct vessel audits at regular intervals, write audit reports and accident investigation reports. In addition, you ensure appropriate training, coaching and monitoring on safety and environmental aspects of all vessel crews and office staff to meet regulations and improve safety awareness.

To excel in this function you should have an Intermediate Vocational Education diploma (MBO)/ Higher Vocational Education diploma (HBO) e.g. Occupational and Safety Education, a minimum of three years' work experience in an industrial branch, preferably in the marine or process industry and proficient knowledge of Safety and Quality systems. Furthermore, you have excellent interpersonal, auditing and reporting skills and are able to communicate and influence at all levels within the organisation.
