

**Your experienced
partner for vessel
management,
services and
solutions**

.... CONNECTING MARKETS

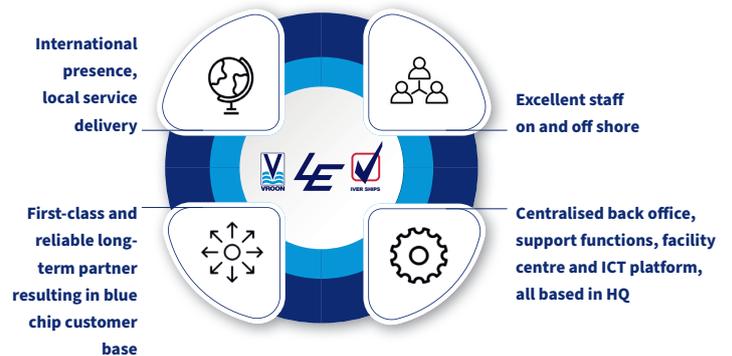

VROON GROUP

Vroon is an international shipping company providing seagoing transportation services and engineering & support solutions. A family-originated business, established in 1890, Vroon today operates and manages a diverse fleet of approximately 110 deepsea and offshore vessels. All operations meet stringent safety and environmental requirements, with vessels following rigorous maintenance programmes.

Vroon delivers high-quality services and solutions, based on traditional values and a proven track record. We are committed to making our clients successful by providing **safe, reliable and cost-effective services and solutions.**

With around 2,000 professionals employed worldwide, Vroon has the expertise to MEET your needs, the people to DELIVER and the determination to SUCCEED.

We are committed to making our clients successful by providing safe, reliable and cost-effective services and solutions.

OUR SERVICE OFFERING

Our in-house professionals build on their wide expertise and proven track record to provide a personalised approach. Tailored to fit your specific needs and operational areas, our services will add value to any project.

Check out our offering that includes:

COMMERCIAL AND OPERATIONS MANAGEMENT

- Access to a well-established international commercial network, including vendors and brokers
- Chartering and tendering, including pooling services, time-charter & voyage-charter execution and post-fixture services
- Bunker management and continuous (live) monitoring of ship speed & fuel-oil consumption
- Worldwide network of agents
- Proven track record in accommodation-workboat (AWB), heavy-lift and helideck operations

SHIP MANAGEMENT

TECHNICAL MANAGEMENT

- Technical support, from audits and surveys to management of change, hull, machinery & systems condition monitoring and maintenance management
- Statutory and class certification
- Performance and Engineering - including project management, ship-designing, ship-performance improvement, conversion and newbuilding projects
- Access to on-line ship reports and performance reporting
- Procurement services supported by a global supplier network

CREW MANAGEMENT

- Crewing services, including recruitment, competence & performance management and coordination of training, travel and payroll

QUALITY, HEALTH, SAFETY, ENVIRONMENTAL AND RISK MANAGEMENT

- Compliance with stringent (international) industry and client requirements
- ISO and OHSAS (Occupational Health and Safety Assessment Series) compliant certification
- Compliance with OVMSA2 (Offshore Vessel Management and Self-Assessment) and TMSA (Tanker Management and Self-Assessment) requirements
- An industry-recognised safety programme, Leaders in Safety
- Leadership in anti-corruption endeavours through our Maritime Anti-Corruption Network (MACN) membership
- In-house-developed safety-management system and risk-analysis procedures
- Regular ship inspections and vetting by independent safety inspectors
- Emergency-response management

OTHER SERVICES

24/7 support from our dedicated teams in a wide range of disciplines that include:

- ICT - enhanced by access to an advanced integrated ICT system ashore and onboard
- Legal - including insurance management, claims handling and negotiating & contractual assistance
- Accounting and administrative services

We look forward to hearing your needs and ideas
