

VROON OFFSHORE SERVICES

... CONNECTING MARKETS

**Your experienced partner
for offshore-support services
and solutions**

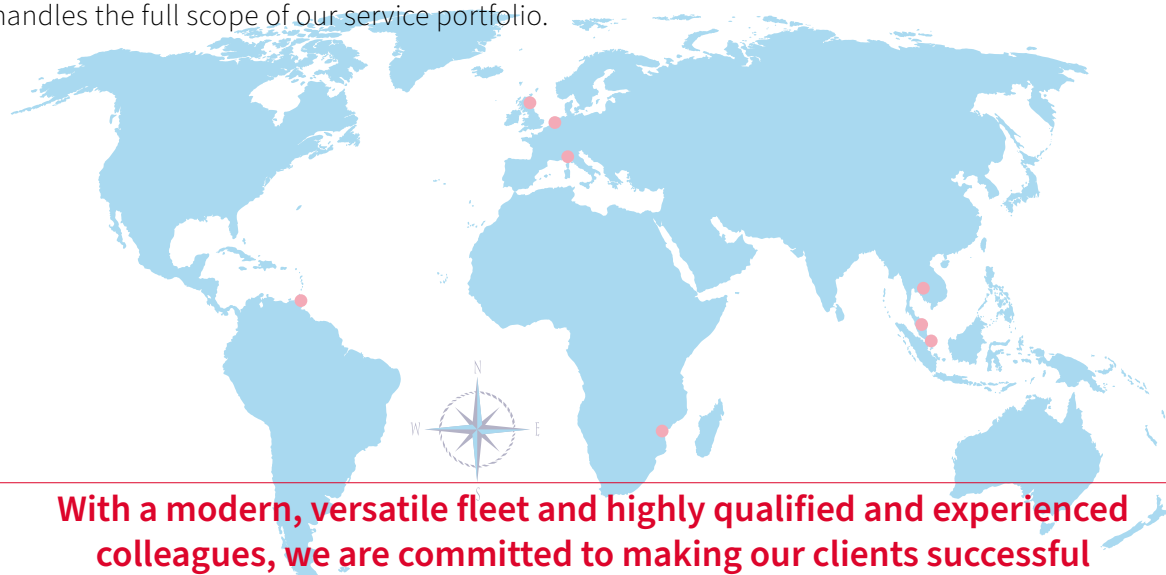

Vroon Offshore Services (VOS) is a leading maritime offshore-services supplier, with offices in Aberdeen (UK), Den Helder (NL), Genoa (IT) and Singapore (SG). As international operator, VOS has a strong geographical presence in Northern Europe, the Mediterranean, North Africa, the Indian Ocean and Asian regions. The company also operates in Mozambique, Malaysia, Thailand and Trinidad & Tobago. Vroon has been active in the offshore market since 1964.

VOS excels in the provision of diverse services and solutions for key offshore-support needs, including platform supply, emergency response and rescue, anchor handling tug supply, walk to work and subsea support. In addition, VOS offers a wide range of complementary offshore services.

All commercial, ship-management and operational matters are handled by in-house professionals. All VOS offices and vessels operate to the highest safety and operational standards, making use of Vroon-customised and ISO (International Organization for Standardization) management systems.

A highly qualified and professional team of on-board crews and shore-based colleagues handles the full scope of our service portfolio.

With a modern, versatile fleet and highly qualified and experienced colleagues, we are committed to making our clients successful by providing safe, reliable and cost-effective services.

Leaders in Safety

SAFETY

Committed to safe practices in all operations and everyday actions.

We believe safety is a “way of being” and a mind-set. The Vroon way is to show our duty of care for the wellbeing and safety of our colleagues and those we serve. Implemented throughout Vroon, the behavioural-based safety programme, “Leaders in Safety”, forms an integral part of our safety mind-set. It empowers individuals to intervene when confronted by unsafe conditions (Five-Star intervention) and creates better situational awareness.

PEOPLE

Dedicated team of highly qualified and experienced colleagues, both on and offshore.

The dedication, experience and high quality of our colleagues form the cornerstone of our service to clients. The professionalism demonstrated by all VOS employees results from extensive training and personal-development programmes, combined with many years of experience in offshore markets.

SERVICES

We care about our customers and business partners.

Working closely with our business partners across the Oil & Gas and Renewable-Energy market segments, we aim to enhance our capabilities, providing high-quality services and solutions to our customers and maintaining a flexible and professional organisation.

EXPERTISE

Leading maritime offshore-services supplier, with over 50 years' experience in the business.

More than half a century of offshore experience, in combination with our dedicated staff and continuing fleet improvements, guarantees the unmatched expertise we offer our clients. All offices and vessels operate in accordance with Vroon-standardised processes and procedures. ISO management systems reinforce an ongoing commitment to delivering high-quality services, while still contributing to environmental sustainability. OHSAS (Occupational Health and Safety Assessment Series) certifications, based on a robust safety-management system, highlight our continuous focus on improving health and safety for all colleagues.

SUSTAINABILITY

We actively support developments that improve the sustainability of shipping operations and enhance protection of the environment.

Effective waste management and pollution prevention are embedded in the way we work. The optimisation of vessels for efficient fuel consumption is supported by power-management systems and operating procedures. We share best practices and co-operate with clients and business partners on sustainability initiatives.

CONTRIBUTING TO YOUR SUCCESS

OUR FLEET

Anchor-handling tug supply vessels

With approximately 25 modern small- to medium-sized anchor-handling tug supply (AHTS) vessels (5,150-6,500 BHP), VOS is an expert operator in the 65 to 93-ton bollard-pull segment.

Our vessels are well built and (fuel) efficient. Their crews are committed to safe and high-performance operations tailored to specific client requirements. Our wide scope of services ranges from anchor handling and towage, through general supply and accommodation support, to seismic support and subsea support.

- Anchor-handling duties
- Towage capabilities
- Deck and under-deck cargo capabilities
- Hotel-type-comfort accommodation
- Extensive client email and data-communication facilities
- Passenger transfers
- Dynamic positioning
- Subsea, ROV (remotely operated vehicle) and survey support
- Seismic support
- Oil-spill recovery
- Liquid & dry bulk and (in-line) bunker transfers
- Safety standby
- Fire fighting

**DEDICATED TO QUALITY
IN EVERY RESPECT**

Platform-supply vessels

Our modern fleet of approximately 20 platform-supply vessels (PSV) offers deck space from 620 m² to 850 m² and can meet any offshore logistics requirement.

We handle liquid & dry bulks and deck cargoes in all forms and sizes, as well as pipes and project cargo. Our vessels can carry methanol and IMDG (International Maritime Dangerous Goods) class 7 materials, with safety performance and fuel efficiency being paramount. Multirole capability and SPS (Special-Purpose Ships) compliance, combined with the expertise of our crews and technical staff, cater for a wide range of additional service solutions, including walk-to-work and remotely operated vehicle (ROV) operations.

- Supply and support of fixed and non-fixed offshore installations
- Deck and under-deck cargo capabilities
- Hotel-type-comfort accommodation
- Extensive client email and data-communication facilities
- Walk-to-work passenger transfers
- Dynamic positioning
- Liquid & dry bulk and bunker transfers
- Safety standby
- Fire fighting
- Oil-spill recovery
- ROV operations

Emergency response and rescue vessels

VOS operates approximately 40 emergency response and rescue vessels (ERRV), with a service that continues 24/7, 365 days/year on location.

All ERRVs boast state-of-the-art rescue equipment and rescue crafts. Operated by experienced crews, our vessels guarantee the safety of all those working on offshore installations. In addition to response-and-rescue duties, the vessels offer a range of extra services, including cargo operations, towage assistance, traffic monitoring, pollution control and general in-field support. With the main areas of operation being West of Shetlands, the North Sea and the Irish Sea Basin, our vessels and crews are skilled in performing during challenging weather conditions and can respond to any emergency situation within two minutes.

- Dedicated ERRV operations
- Extensive medical facilities
- Fast-rescue-craft deployment
- Enhanced rescue equipment
- Guard-vessel duties
- Deck and under-deck cargo capabilities
- Towage capabilities
- Tanker-assist operations

Subsea-support vessels

Our compact and medium-sized subsea-support vessels (SSV) offer a wide range of services.

The VOS vessels and crews, assisted by dedicated experts ashore, provide a safe platform for offshore divers, ROV pilots, riggers and client personnel. Our SSVs are equipped with cranes with operating ranges of up to 50 tons. We offer ultra-fuel-efficient four-point-mooring-positioning functionality, in addition to DP-2 operations. Our modern vessels are SPS compliant and on-board hotel services include state-of-the-art ICT functionality, with dedicated client personnel (leisure) internet connectivity.

**UNRIVALLED ADAPTABILITY AND
CUTTING-EDGE INNOVATION IN
ANY OFFSHORE PROJECT**

- Subsea, ROV (remotely operated vehicle) and survey support
- Seismic support
- Dive support
- Deck and under-deck cargo capabilities
- Walk-to-work passenger transfers
- Hotel-type-comfort accommodation
- Extensive client email and data-communication facilities
- Crane operations
- Construction and maintenance support
- Windfarm-support duties
- Refuelling operations
- Transducer-station supply
- Dynamic positioning

Walk-to-work vessels

Over recent years, our crews have built a successful track record in walk-to-work activities, including testing and operating newly developed gangway systems. Our extensive walk-to-work experience is optimised in two purpose-built subsea-support walk-to-work vessels, which offer clients a world-class experience, in both walk-to-work functionality and hotel-type accommodation.

We provide efficient and cost-effective solutions for all offshore-service requirements, across the full range of subsea-support and walk-to-work services.

- Walk-to-work passenger transfers
- Hotel-type-comfort accommodation, including sky client office, library, gym and cinema
- Dedicated client generator and 10 m2 client workshop
- Extensive client email and data-communication facilities
- Deck and under-deck cargo capabilities, including 190 m2 covered warehouse
- Crane operations with 50-ton active-heave-compensated crane
- Subsea support
- Construction and maintenance support
- Windfarm-support duties
- Refuelling operations
- Transducer-station supply
- Dynamic positioning

VROON

Vroon is an international shipping company providing seagoing transportation services and engineering & support solutions. With more than a century's experience, Vroon delivers reliable, high-quality and cost-effective services, based on traditional values and a proven track record, enabling its customers to be successful.

Vroon operates and manages a diverse fleet of approximately 110 vessels. All operations meet stringent safety and environmental requirements and the company's vessels follow rigorous maintenance programmes.

Vroon is active - through various subsidiaries and under different brand names - in the following business segments:

- Livestock carriers
- Offshore-support vessels and services
- Offshore maintenance and engineering services

- Product tankers
- High-heat tankers

Vroon attaches great importance to its Vision and Mission, Core Values and Culture, which provide guidance to all staff at sea and ashore. In 2015 the company joined the Maritime Anti-Corruption Network (MACN). MACN is a global business network working towards the vision of a maritime industry free of corruption that enables fair trade to the benefit of society at large.

With around 2,000 professionals employed worldwide, Vroon has the fleet to MEET your needs, the people to DELIVER and the determination to SUCCEED.
